

800 Better Bridges

Bridge on Route C over Spencer Creek to be repaired in 2009!

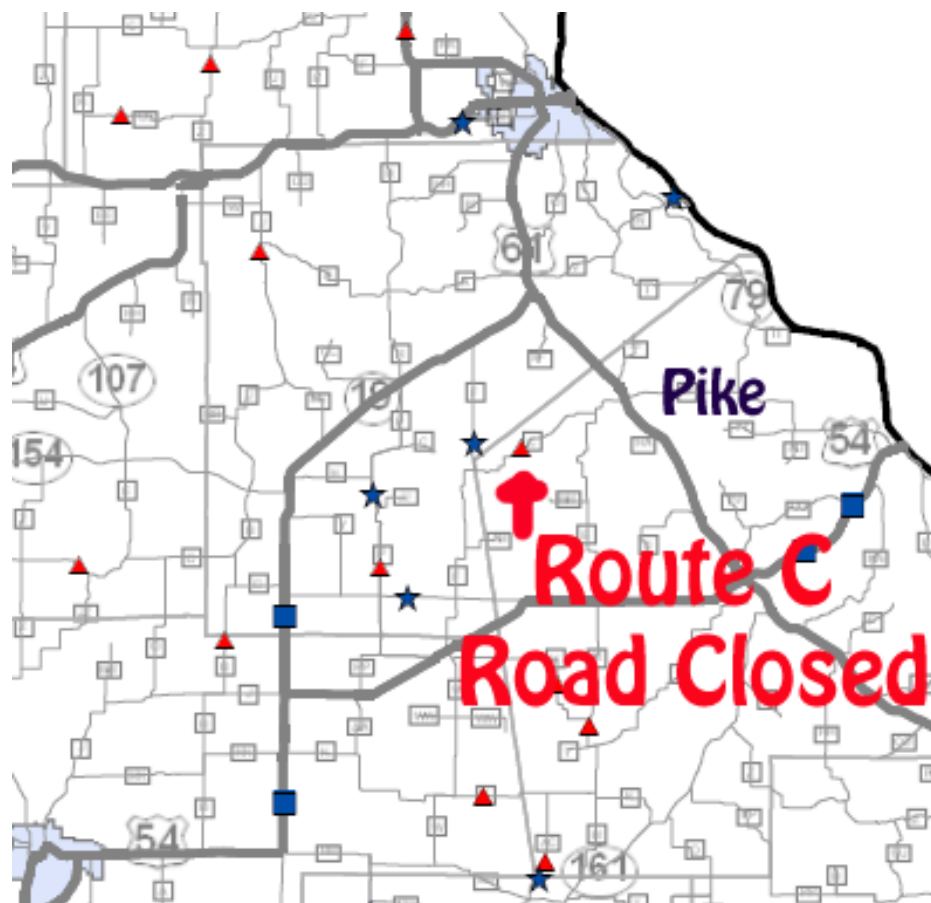

ROAD WILL BE CLOSED DURING CONSTRUCTION

As part of the first phase of the Safe & Sound bridge program, MoDOT will rehabilitate the Route C bridge between Frankford and Vandalia in Pike County next year.

"This bridge is part of the statewide Safe & Sound program, which means it's going to be repaired early next year," explained MoDOT Construction and Materials Engineer Macy Rodenbaugh.

While not all the specifics of the project are available at this time, as far as dates for the closure and construction, the road will be closed while the bridge is rehabilitated, and it will more than likely take place in the spring before school is out for the summer.

Other bridges slated for repair as part of the program in MoDOT's Northeast District include Route C in Knox County just west of Greensburg, and Route H in Scotland County just north of Arbela. A complete listing of bridges that are expected to be part of the 802 bridge program are online at www.modot.org.
